Volunteers sought to revamp the School Website

Dear Alumnae,

Good Hope School would like to do a refresh and update of the school website with the generous support of volunteer past students who can donate their time and efforts. If we can gather a team of past students who have expertise in this area it will lighten the commitment for everyone.

The School is looking for past students with the following expertise:

- Able to develop a responsive website with HTML5, CSS3 and Javascript
- Able to develop database-driven websites with PHP (or Ruby on Rails, etc.)
- Experienced in user interface design
- Experienced in creating Content Management Systems

Please contact Winnie Ho at GHS at 2321 0250 ext 61 or whb@ghs.edu.hk, if you are able to support your alma mater with this project.

Thank you in advance for your generous support.

Good Hope School
